

Professor Aleksandar Perić, MD, PhD

Department of Otorhinolaryngology

Faculty of Medicine of the Military Medical Academy, University of Defence, Belgrade, Serbia

ORCID ID: <https://orcid.org/0000-0002-8453-7272>

OTORHINOLARYNGOLOGY SPECIALIST

Born in Šabac, Serbia, in 1971.

Education:

In December 1996, he graduated from the School of Medicine of the University of Belgrade, with an average grade of 9.53. He completed his specialization in otorhinolaryngology at the Military Medical Academy in December 2005.

In December 2013, he defended his PhD thesis entitled "Assessment of the effects of preoperative use of clarithromycin in the treatment of nasal polyposis" at the Faculty of Medical Sciences, University of Kragujevac, Serbia. In October 2019, he was elected assistant professor, and in October 2019, associate professor at the Medical Faculty of the Military Medical Academy for the subject 'Otorhinolaryngology and Maxillofacial Surgery'. He is engaged in research of pathophysiological mechanisms in chronic inflammatory diseases of the nasal mucosa and paranasal sinuses, as well as in research related to the mechanisms of rhinogenic headaches. In clinical work, he deals with functional and esthetic surgery of the nose, as well as endoscopic surgery of the nasal cavity and paranasal sinuses.

Work experience:

2005-2014: doctor at the Rhinology Unit of the Department of Otorhinolaryngology of the Military Medical Academy

2014-2019 - Head of the Otology Unit of the Department of Otorhinolaryngology of the Military Medical Academy

2019 - Head of the Rhinology Unit of the Department of Otorhinolaryngology of the Military Medical Academy

References:

Projects:

Head of scientific project "The role of inflammatory mediators and growth factors in the pathogenesis of chronic inflammation of the nasal and paranasal sinuses mucosa", project MFVMA03/23-25/

Head of scientific project "Impact of conservative treatment on clinical and inflammatory parameters of rhinosinusitis", project MFVMA 02 /19-21/

Head of scientific project "Pathophysiological mechanisms in chronic upper airway inflammation", project MFVMA 05 /16-18/

Bibliography:

He has published many papers in peer-reviewed scientific journals, of which 60 papers in CC/SCI/SCIE (Web of Science) journals. The list of papers published in the Web of Science can be found via the link:
