Clinical experience

Presently, I am working as staff anesthesiologist in the Department of Anesthesiology and Intensive Care of Military Medical Academy. My anesthesia management includes oncology surgical procedures including thoracic and major abdominal surgery, urology, orthopedic and trauma cases, emergency vascular and neurosurgical procedures and remote anesthesia including angiography suit, bronchoscopy and laryngomicroscopy procedures. Additionally, my appointment includes trauma and intensive care on calls. The Department consists of 32 anesthesiologists and 20 residents.

My university activity as professor of anesthesiology beside lecturing, includes mentorship during anesthesiology and surgery residency, PhD studies and undergraduate medical students during medical school. Moreover, I am involved in improvement of postoperative pain management including organization, teaching, construction and implementation of protocols for postoperative pain management in the intensive care, and on surgical wards. Also, I am founder and chief of Pain Medicine curriculum for medical students at University of Defence in Belgrade, Medical Faculty of the Military Medical Academy.

During period of 27 months I was appointed as Instructor in Department of Anesthesiology, Washington University School of Medicine, Barnes Jewish Hospital. My job included anesthesia for major abdominal surgery like renal transplant surgery, vascular surgery (open and endoluminal stents placements), orthopedic surgery, complex surgical procedures of the thoracolumbar and cervical spine surgery, neurosurgery, ear-nose-throat, urology, gynecology and trauma cases.

Under the sponsorship of the Royal College of Anesthetists I worked as clinical research fellow for liver transplants in Anesthetics at St James's University Hospital

under supervision of Prof. Mark Bellamy. This job included the clinical work in operating theatre for kidney and liver transplantation, trauma, day-case surgery and clinical research.

My first appointment as anesthesiologist was at Medical Center Bezanijska Kosa in Belgrade where I was involved in anesthesia for abdominal (gastric, esophageal, colorectal and hepatobiliary) surgery, urology, orthopedics and intensive care.

Languages: English (assessed by IELTS – International English Language Testing System), Serbian

Trainee/Mentee/Sponsorship Record

PhD Mentor, Advisor and supervision of Katarina Mladenovic, MD during her doctoral studies in Pain Medicine, University of Defence in Belgrade, Medical Faculty of the Military Medical Academy 2016-2019. Reason for mentorship was the design, approval and implementation of a randomized clinical trial on the impact of transcranial direct current stimulation with intravenous morphine for perioperative analgesia after thoracotomy for lung surgery. This mentorship resulted in:

- Completion of PhD Thesis for Katarina Mladenovic, who is now appointed as Associate Professor at the University of Defence in Belgrade, Serbia Medical Faculty of the Military Medical Academy
- Two peer-reviewed publications in the high impacted journals
- 1 abstract in International Meetings
- 1 abstract in National Meeting
- 2 oral presentations

Mentor for graduation exam at University of Defence in Belgrade, Medical Faculty of the Military Medical Academy:

- Mina Stanic. Preoperative assessment of potentially difficult airway. Defended at Faculty of Medicine Military Medical Academy, University of Defence, Belgrade, Serbia, July 20th, 2016.
- Aleksandra Djajic. Music therapy as adjuvant nonpharmacological method for acute postoperative pain management after maxillofacial surgical procedures. Defended at Faculty of Medicine Military Medical Academy, University of Defence, Belgrade, Serbia August 10th, 2017
- Katarina Lojanica. Chronic postoperative pain after thoracotomy in patients treated with transcranial direct current stimulation and patient controlled analgesia. Defended at Faculty of Medicine Military Medical Academy, University of Defence, Belgrade, Serbia August 15th, 2018
- Marija Stojkovic, Postoperative pain management bundle efficacy evaluated with patient reported outcomes, Defended at Faculty of Medicine Military Medical Academy, University of Defence, Belgrade, Serbia, August 10, 2020.
